# EU4Health programme for a healthier and safer Union

#EUBudget #EU4Health

Building on the lessons learned from the COVID-19 crisis, EU4Health is an ambitious and dedicated funding programme for 2021-2027 to build resilient health systems in the EU to better equip us for the future. Through EU4Health, the EU will invest **€9.4 billion** in:

## Tackling cross-border health threats

Ensure prevention, preparedness, surveillance and response to cross-border health threats

Build emergency reserves of medicines, medical devices and other health supplies

Establish a Union health emergency team to provide expert advice and technical assistance in case of a health crisis

Coordinate emergency health care capacity

## Making medicines available and affordable

Make medicines, medical devices and other critical health supplies available and affordable for patients and health systems

Advocate prudent and efficient use of medicines such as antimicrobials

Support innovative medical products and greener manufacturing

# Strengthening health systems

Improve accessibility, efficiency and resilience of health systems

Reduce inequalities in accessing health care

Tackle non-communicable diseases such as cancer by improving diagnosis, prevention and care

Exchange of best practices on health promotion and disease prevention

Scale up networking through the European Reference Networks and extend it to infectious and non-communicable diseases

Support global cooperation on health challenges to improve health, reduce inequalities and increase protection against global health threats

**Funding for health policy priorities will also be available via**
